Subject: RE: Meeting to review CES revised plan for Financial Responsibility

Thanks, Calvin.

I have confirmed with our team the proposed day/time works. Will send a MS Teams meeting invite shortly. Per your request, I will also send over any docs/info for review prior to the meeting.

Thanks again and best regards,
-Rebecca

Hi Rebecca,

We should be available next Tuesday (12/15) from 1pm to 2pm PST. Please send an invite to David, Shari, and me.

Please send for our review any documents that you think might facilitate the discussion prior to the call.

Regards,
Calvin

Subject: Meeting to review CES revised plan for Financial Responsibility

Hi Calvin, David,

I hope all is well and that you are staying safe and healthy during this holiday season.

As you know, we have been working the Financial Responsibility requirements for the Class VI permit for our Mendota CCS project. We have developed an updated plan that we feel will work for the project moving forward. It considers the activities related to the various stages of the CO2 well (per the EPA's guidance docs) as well as the timing of said activities. We would like to run this revised plan by you before going out and securing the proposed financial instruments; and can also offer some insight on the feedback we have received so far regarding some of the instruments.

Do you and your team have some time next week, the week of 14-Dec, to discuss? We do have updated estimated financial requirements (\$) for all activities except for the ERR. The ERR is taking more time to develop. We are happy to discuss the updated timing for this as well, but the actual dollar amounts would not be the focus of the call. The primary goal is to make sure our plan is aligned with EPA prior securing the financial instruments.

Thanks again and as always, let me know if you have any questions.

Kind Regards,
-Rebecca

Thanks, Calvin.

Regarding our submission without Confidential Business Information (CBI), it appears it was only user err. I was thrown by the other information request tabs. You should have now received the notification from the GS Data Tool regarding our submission.

I will send a separate email with our Response to EPA's Technical Evaluation Comments and Information Request #2 containing CBI and call you this afternoon with the password.

Thanks again,
-Rebecca

Hi Rebecca,

I have not received a GSDT notification email regarding the response submission. Missed the due date by a business day is okay.

You can send me the other version of the response using the pervious method.

Best regards,
Calvin

Hi Calvin,

I hope this email finds you well.

I uploaded our Response to EPA's Technical Evaluation Comments and Information Request #2 to the GS Data Tool site today. It appears the file was accepted but wanted to make sure you received it - looks like we missed the 31-Oct-2020 deadline by a (business) day.

Also, per our discussion, the version uploaded to site does not include Confidential Business Information (CBI). So, I would like to make arrangements to directly send you a secure version that contains the CBI material. I am hoping we can use the method we have used in the past by emailing a password protecting a PDF-file.
Please let me know your thoughts.

Thanks again and happy Monday,
-Rebecca

Hi Rebecca,

We have issued our second technical evaluation comments and information request today via the Information Request module of GSDT. Let us know if you have any questions about the request.

Sincerely,

Calvin Ho
